

15 JULY 1986

**CIVIL AIR PATROL
SENIOR MEMBER TRAINING PROGRAM
SPECIALTY TRACK STUDY GUIDE**

HISTORIAN

Forward

The recording of events is significant. Compilation of facts that tell of events combine to create a history. A comprehensive history is of considerable value for research purposes and to serve as a documentary. Since a history is objective and it describes in an accurate fashion activities that happened, it enables others to use the data for research, planning, and to portray activities of individuals and groups during specified times. Histories not only tell of success, they cover failure and defeat, explain problems encountered and solutions attempted.

The Historian Study Guide is for individuals to use in progressing from the entry level of technician to the intermediate level of senior and to the highest rating of master. The technician level provides the individual with basic information to use in performing duty as a historian at unit level. The senior level prepares the historian to serve as a functional historian and also in an expanded role as an advisor to the commander. The master level provides for a person to advance to the highest level by gaining extensive knowledge of all phases of the historian field. The historian will then be qualified to serve in any historian capacity in the Civil Air Patrol.

Supersedes CAPP 223, 31 July 1984.

OPR: National Historian

Distribution: In accordance with CAPR 5-4.

HISTORIAN TRAINING GUIDE

TECHNICIAN RATING

1. Position Description. (Reference Source: CAP Manual 20-1) Assists the Commander on all historical matters. Implements a historical program to include:
